**Mayflower Medicinals Supports Public Policy that Provides Opportunity
for Social Equity Applicants**

January 24, 2021

Mayflower Medicinals stands for Social Equity and Economic Empowerment. We are proud to be a part of an industry that advocates for equitable access amongst its members and Mayflower is committed to furthering this goal. Mayflower recently became aware of and is disappointed with the lawsuit filed by the Commonwealth Dispensary Association against the Cannabis Control Commission. As a result, Mayflower is ending its membership with that Association, effective immediately. We are doing so because of our commitment to supporting Social Equity and Economic Empowerment in this industry, and we believe that every step we take should be in support of those initiatives.

John Henderson
Chief Executive Officer, Mayflower Medicinals
